

## The Editor Speaks...

(Continued from Page 1, Column 2)

destruction by not following the precepts of Christ and making them part of our daily lives. In this, the time of the year for soul-searching, we should resolve to have no part in the vile, filthy, rotten, materialistic society surrounding us. We should not contribute one cent to any cause which is not working for the complete destruction of the forces of evil.

We try to give a brief idea of the trials and problems that accompany the publication of our little newspaper in one annual report, which should take many pages. We scarcely know where to start. We will just refer to a few of **many things** at random!

Correspondence — or the answering of it — is probably the most time consuming matter of all. We continually receive many letters from all parts of the world, asking for all sorts of information. For these and all letters people take the trouble to write us, we are most grateful. We answer as many as possible, as quickly as possible. What causes us no end of grief is that a certain number — sometimes far too many — become hopelessly buried because of lack of time and help. We try to take "first things first" which means giving preference to handling our mailing list and filling orders.

Our mailing situation has grown into a man-sized job but we still have the same small dedicated force. The details involved in zip coding, processing new subscribers, renewals, changes in address is tremendous and the utmost accuracy is needed. Besides having to comply with postal regulations, as anyone running a small business knows, we are hampered with all sorts of mis-government taxes and regulations which waste precious time. To give an idea of our volume, one recent record-breaking week, we spent **\$1,000.00 on postage alone!**

Then there are the absolute necessities such as payroll, accounting, tax-matters, phone calls, ordering supplies, welcoming visitors. We have an operation too small for computer set-ups and too large for hand operations which we now have.

And this year we were blessed with a family of 11 German Shepherd pups by our pair of dogs, Mitzie and Fritzie. There is nothing like 11 pups to break the monotony and keep the **COMMON SENSE** family busy until homes were found for all. Mitzie and Fritzie are guard dogs and protection of our premises is an absolute necessity.

Then there are setbacks due to sickness, weather, machine breakdowns, and even outside accidents. Members of our staff were recently involved in three accidents within one week. At present, due to this, we are entirely without an office car.

Considering the state of the world and national mess, plus our own endless problems, we wonder if there is any justification for **COMMON SENSE** staying in business (if indeed we should even think of staying in business at this late date) unless we intend to **FIGHT TO WIN. FIGHTING TO WIN** has so enraged the enemies of Christ that we are beginning to feel the job we have taken may be too big for our shoes.

While the over-all situation seems hopeless and futile, we know **HOPE SPRINGS ETERNAL**. We also know in God's own time, all evil will be destroyed and Christianity will triumph, and He uses man to execute His wishes. So with this closing note, we leave it to our readers to determine our future.

**May the Christ child bless you and have mercy on this very sick world!**

If we would demonstrate for **PEACE** and have **PEACE**, we must use the symbol of the Prince of Peace, not the broken inverted cross which is the sign of the anti-Christ!

## Christ and the Family

Happy is the home where Christ is present and which is modeled after the Holy Family

### Brazil, - Triumph of the Rosary

The year is 1964, the country Brazil — key to South America. Ominous political thunderclouds surround the nation in this year of crisis — clouds tinged a deep red, for Brazil is the next target in the Communist plan of world domination.

Inauspicious omens of impending disaster are everywhere, for leftist President Goulart is rapidly prodding the nation toward the Communist camp. His own cabinet consists of known Communists, and the upper echelons of government are filled with pro-Red sympathizers. Cuban-trained rabble-rousers roam the country inciting revolt, and daily Portuguese broadcasts from Red China urge that the peasants overthrow the landowners. Yes, clearly a Communist takeover is imminent — a takeover that would turn Brazil into a base for the subversion of the rest of the continent.

Then the miracle—a counter-revolution of the oppressed middle class rose in unexpected triumph to crush the insidious Red menace and save Brazil. The free-world press hailed that day, April 1, 1964, as a victory for freedom-loving people everywhere. It failed to report that it was also a triumph for the Mother of God, for the rosary saved Brazil.

Even today, the people state it unequivocally: the rosary kept them from Communist slavery. When they saw what was happening, they stormed heaven with aves, and they had been delivered. A typical story of its influence in turning the tide is as follows:

Leonel Brizola, a Communist, intended to give one of the most fiery speeches of his career — a speech advancing the Communist cause in Brazil. When he arrived at the hall, he found it filled with 3000 women praying the rosary so loudly that he couldn't be heard. Astounded, he went outside into the street only to find it completely filled with more praying women. Reluctantly he left, the speech undelivered.

The rosary has always been a super-weapon in overcoming the enemies of Christianity. Miraculously, in times of greatest need, it has saved the day — against the Albigensians in 1213, at Lepanto in 1571, against the Turks in 1683, and now Brazil in 1964. America and the rest of the world can thus learn an invaluable lesson, for these are grave and perilous times. Chaos and strife abound, war is commonplace and millions of bewildered people are tossed aimlessly on the tide of life. As the rosary saved Brazil, perhaps it will save us; it may, in fact, be our last resort, the final hope of the world.

Save us from what some may ask. We are the strongest nation upon the earth. What need we fear? We have much to fear. With Communism making inroads everywhere, with the threat of nuclear war hanging over mankind, it is a time to be afraid, a time to pray.

## CALLING ALL WOMEN!

(Continued from Page 1, Column 3)

the Illuminati Jew-controlled-Freemasons. We are reminded of Weishaupt's boast: "The most admirable thing of all is that great Protestant and reformed theologians, who belong to our order, really believe that they see in it the true and genuine mind of the Christian religion. Oh! man, what can you be brought to believe!" Commenting on this in her *World Revolution*, Nesta Webster says: "Catholics likewise have allowed themselves to be blinded to the real forces at work."

We are shocked and dismayed at the evident attempts to discredit the Catholic church, chief of which is the practically obscene pictures and sculpture, which in our mind debases the pure and Holy; we are shocked at the "Whittling Down" of prayers to please the Jews. We are sad to see this announced accomplishment of The Protocol Plan of the Learned Elders of Zion.

"We have long past taken care to discredit the priesthood of the goyim, and thereby to ruin their mission on earth which in these days might still be a hindrance to us." (Protocol No. 17.)

**THERE REMAIN THE WOMEN.** They will take up the command given to Mary, or — **WILL THEY?** Will they "bear witness to God's Truth?" while the men recover from their "fear of the Jews?"

These words of warning written by Robinson 160 years ago might well be laid to heart by women:

"I would conjure them, by the regard they have for their own dignity to join against these enemies of human nature and profligate degraders of their sex; and I would assure them that the present state of things almost puts it in their power to be the saviours of the world . . . Woman is indebted to Christianity alone for the high rank she holds in society. . . . It is undoubtedly Christianity that has set woman on her throne."

More horrible than the degradation of women is the systematic demoralization of children which we see being carried out. This may arouse women more fully than their own degradation. It's high time women realize that they have lost in this "cultural" and labor-saving age! Women of America work harder than they ever did, to pay for labor-saving gadgets; she has made delinquents of her children, because children want more than anything to have a mother in the home. If they can talk to her they won't listen to "progressives" who are repeating the age-old nostrums of Cerinthus who, 67 years after Christ, was denying His Divinity. She nor they, would listen to these "cultured scientists" who have "Only a torch for burning and no hammer for building." With so full-grown intellect, they have outgrown God. Yet, women have lost much and it behooves them to look about and set after retrieving their queenly state.

She is the product of Christianity, and while Priests and Preachers may fail, Christianity has not failed. Christ has no part in the human atrocities perpetrated in His name. Those have been by men who sought their own way to power and used His name to deceive those of good will.

Women of America, women of the world, since men have failed — they have made a slaughter house of the world, and the bodies of your sons lie rotting there — why not take up the Cross, or as was the charge to Mary Magdalene, "**Tell the Glad Tidings**" of no more wars. Once women make that decision, and mean it. . . men's war reign is over. But it would set the bells of heaven ringing, the glad New Age would be here, the sorrowful star no longer sorrowful. Then and only then will there be "**PEACE ON EARTH,**" in His Name, the Name of Jesus Christ.
